

"Helping build safer communities"©

Disaster Response Inspector

1 Day 6 hours (0.6 CEU's)

Registration 7:30

Class starts 8:00

Classes are limited in size...
SC #

Cost 150.00

Course Objective: We all want to do our part when a disaster occurs. Performing field inspections in a timely manner and completing the necessary paperwork is a vital part of the process. Every inspector should be familiar with this process, as you could be called upon tomorrow to step up to the plate.

Method of Evaluation: Through a series of pre and post progress tests and reviews the instructor will help the student better understand how to interpret the code correctly and avoid common mistakes in the field. A workbook, films, and pictures let the student see how related tables and sections interact, and how to incorporate them into inspections and plan reviews.

Day 1

- *ATC 45 Safety Evaluations for wind and flood damage building*
- *ATC 20 (1) (2) safety evaluation for earthquake damaged buildings*
- *Existing Building Code*
