Course Objective To help the student understand the 3 parts of a means of egress and how they will be dealt with in every day construction. How do figure occupant load, egress width, and distance to the exit is one of the more popular parts of this course

Method of Evaluation: Through a series of pre and post progress quizzes, reviews, and worksheets, the instructor will aid the inspector in seeing how related tables and sections are used to form the current code. The instructor will help the inspector better understand how to interpret the code correctly and avoid common mistakes in the field.
