Course Objective: LEED Green Associate is and will be the buss word of the future. This class will help the plan reviewer understand the LEED process as well as what is a Carbon footprint.

Method of Evaluation: Thru a series of pre and post progress tests and reviews the instructor will help the student better understand how to interpret the code correctly and avoid common mistakes in the field. A workbook, films, and pictures let the student see how related tables and sections interact, and how to incorporate them into inspections and plan reviews.
